

Pro Bono & Community Outreach

Pro Bono & Community Outreach

Providing free legal advice to those in need is deeply rooted in Saiber's more-than 70-year history. We encourage all attorneys, from members to associates, to engage and serve the communities where we work and call home. Our attorneys approach pro bono matters with the same strategic planning, thoughtfulness and care as they would any matter. Each year, our attorneys dedicate hundreds of hours helping individuals, small businesses, nonprofits and other charitable organizations receive the necessary legal support to reach their goals.

In addition to providing legal advice, many of our attorneys donate their time to serve on boards of charitable and nonprofit organizations, provide legal advice to their local houses of worship, and serve as mentors to inner-city youths through various organizations.
