

Real Estate Tax Appeals

Our real estate tax appeals attorneys have substantial private sector experience representing property owners in real property tax appeals filed with either the Tax Court of New Jersey or various County Boards Of Taxation.

In addition to real property tax issues, our attorneys handle appeals of special assessments for improvements, such as the installation of sanitary sewers or new roads, as well as appeals of assessments and special improvement districts.

Just as each property is unique, so too are the taxation and valuation issues surrounding it. Our attorneys are well-versed in the vast array of constitutional and statutory issues and proceedings involved in real property taxation, as well as the many legal issues involved with the valuation of real property for taxation purposes.
